## THE WITCH DOCTOR BAG

# Assembly instructions

Difficulty level: advanced  
Completion Time 14 - 16 hours

## NECESSARY TOOLS

---

**B&W Printer**

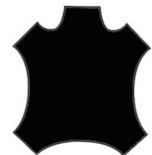

**Scissors or a cutter**

**Hole Puncher**

**About 15 square feet of leather**

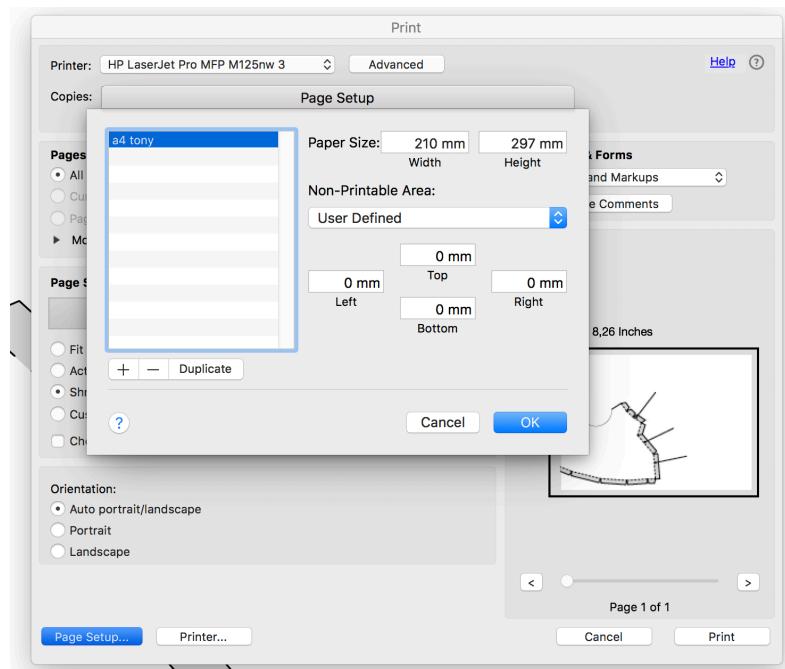

**Thread and needles**

## PRINTING THE PATTERN

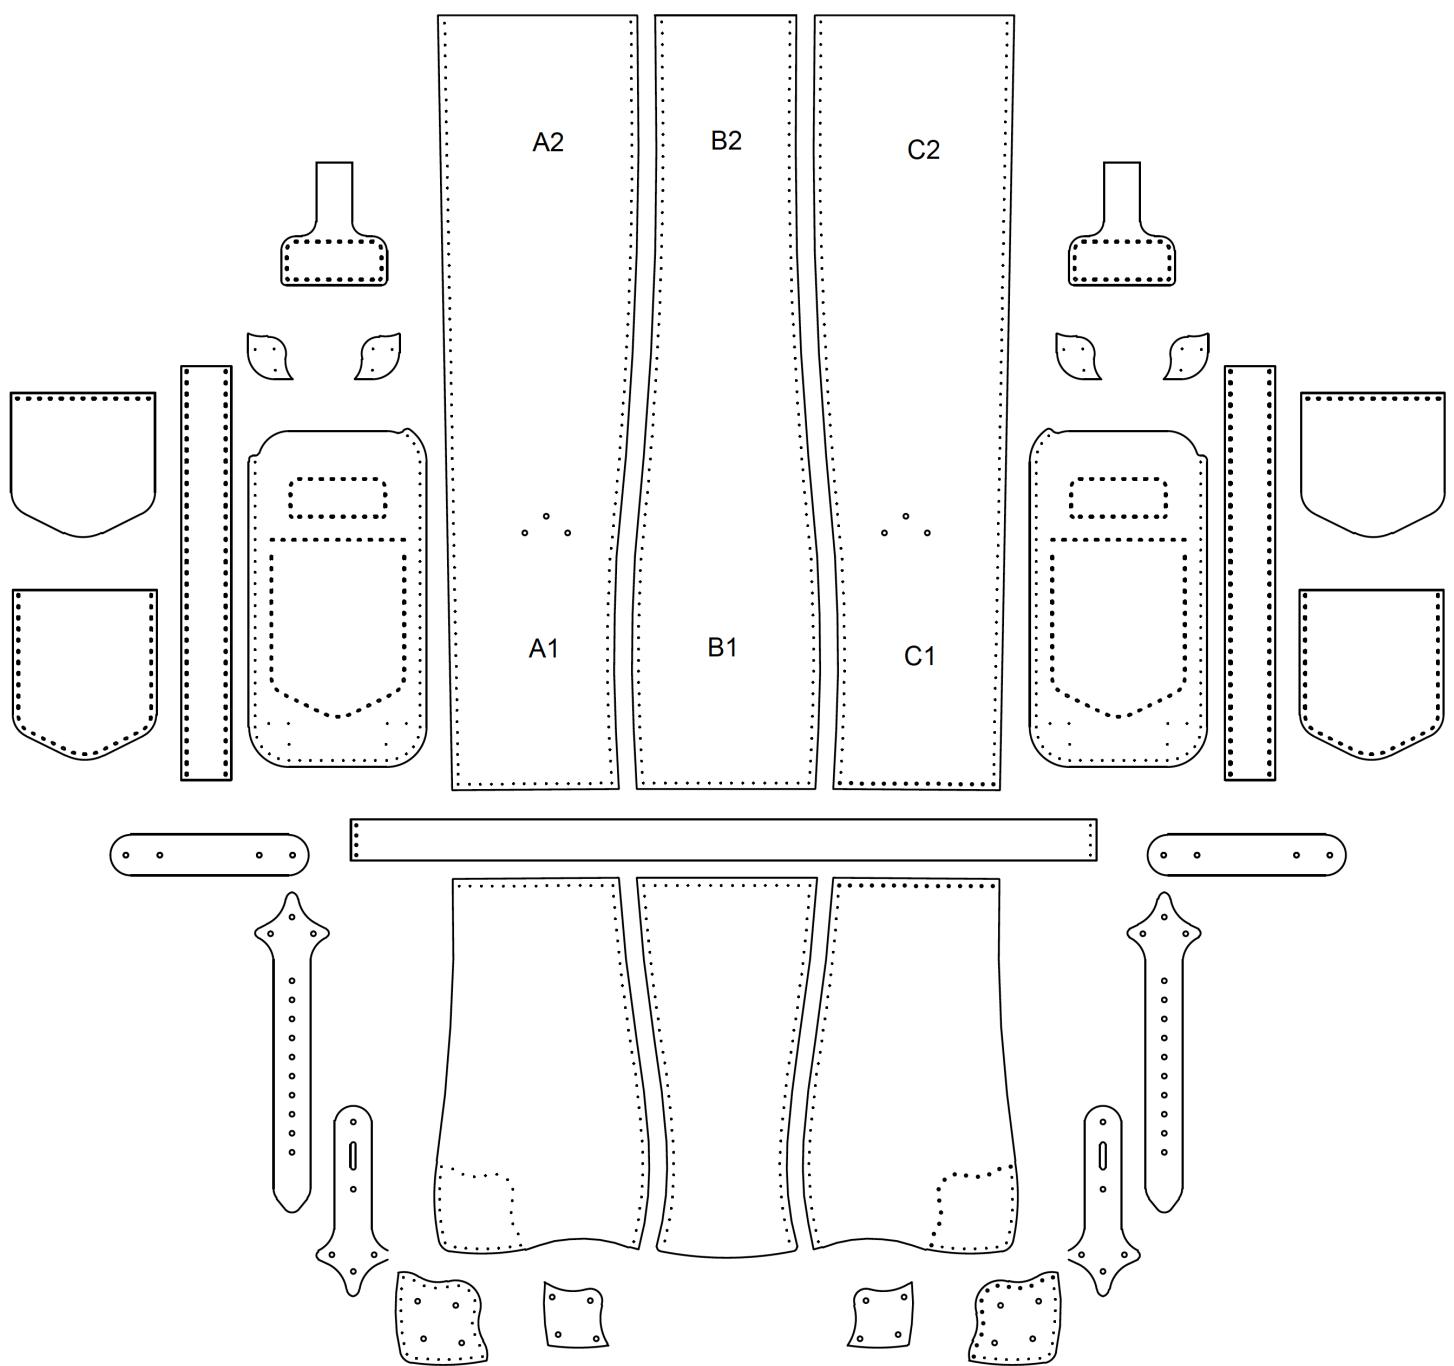

Set up your printer to A4 paper with no margins on landscape mode.

Alternatively you can use “letter” format which is approximately the same size and will not impact the size of the product significantly

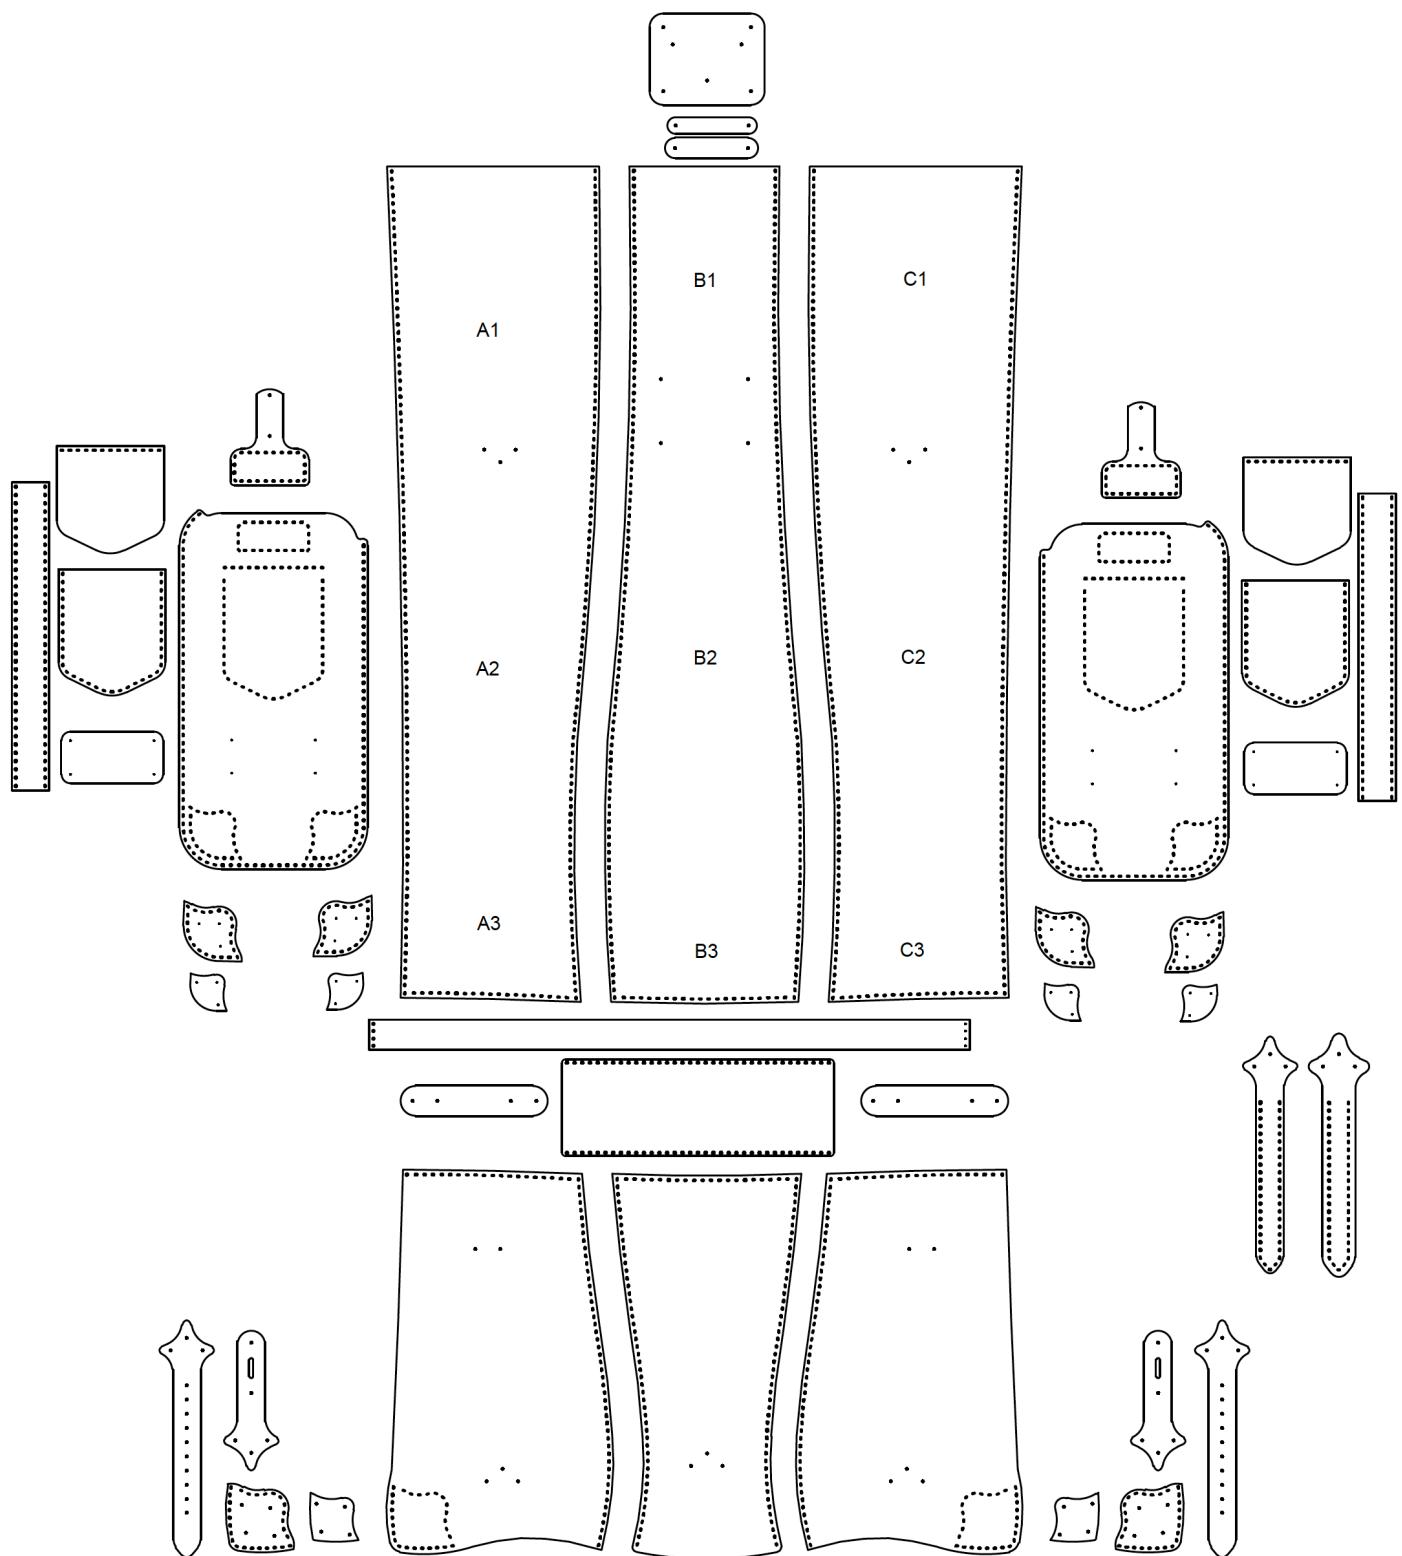

Print all the patterns. Some of the pieces spread over multiple pages. I also used letter and number codes for all the pieces so it is easier to combine

Here are all the pieces you need for the small size bag

And these are the pieces for the larger one, There are just a few extra parts needed for the middle front strap

To help you make the bag with ease we made a video tutorial including all the steps from start to finish

You can access the tutorial here:

The screenshot shows a Facebook group page. The group name is 'Leather Patterns by dieselpunk.ro', described as a 'Public Group'. The group photo is a brown leather bag with multiple straps and buckles. Below the photo, there is a post from a member named 'Steampunk Gear' with the caption '683 like this'. The page includes standard Facebook navigation elements like 'Home', 'Find Friends', and a search bar.
